

His Eminence, Grand Ayatollah Sayyid al-Hakeem directs university students towards investing into the tragedy of Karbala, for the purpose of calling to the right path, towards salvation and accomplishment of this world and the Hereafter.

His Eminence, Grand Ayatollah Sayyid Muhammad Saeed al-Hakeem directed the students of Iraqi universities towards investing into the sorrowful tragedy of Karbala and to gain from it in today's era. The tragedy calls to the true path of salvation and achievement of this world and the Hereafter. He gave these words of guidance to a contingent of medical and engineering students from various parts of the country on 16th September 2018.

Similarly, he advised them to make use of the educational courses of beliefs and Sharia laws, so that one can form a strong foundation of reality and pass it on to others; one can thus avoid misguidance from the truth. One should try to fully comprehend the revolution of Imam Husain (peace be upon him) and his sacrifices, as he gave everything that he had for the cause of the religion and its sanctity, so that his mission and purpose can give fruit to a path to it, all in the interest of this religion and in the struggle against deviation and unveiling falsification.

In the end of this meeting, His Eminence prayed to the Most High and Powerful to accept their pilgrimage, (Zyarat) and their good deeds, and to support them to the path that pleases Him. Indeed He is the Al-Hearing and the Responder to supplications.
